Expertise at a glance

As a leadership communication coach, I help leaders increase their impact through developing their competence of *Heartfelt Presence Communication*. Today it is a challenge for each of us to be focused when we interact with someone. *Heartfelt Presence* is about being present with our whole heart when we communicate whether we are presenting, holding a meeting, conversing face to face or even chatting virtually. Are we receptive and responsive to what is going on while we speak or listen?

With our programs, our clients reconnect to their values, their spontaneity, their authenticity and their capacity to listen and adapt on the go. Within the dispersive and fragmented environment of digital communication, they learn new effective ways to build trust while interacting with others. They strengthen their mastery of clarifying, articulating and communicating their vision and ideas with renewed emotional intelligence. Training to foster a solution focused mindset when facing challenges, they succeed in bringing out the best in themselves and others.
